Thank you very much for your purchase. The software distribution and registration is taken care of by Native Instruments. To give you a perfect start, here are some instructions:

To download and install the software, the free Native Access software by Native Instruments is required as well as a user account on www.native-instruments.com.

The account you created on www.sonuscore.com does not work there.

DOWNLOAD NATIVE ACCESS

1. Open the free Native Access application.
2. Log In with your Native Instruments account (not the account you created on www.sonuscore.com)
3. Click on „+ Add Serial" in the left sidebar of the Native Access software.
4. Enter the Serial Number you received in your order confirmation email from Sonuscore (please also check your SPAM folder - just in case).
5. Navigate to „Library" in the menu on the left.
6. Select „Available“ in the top navigation
7. Click „Install" below your instrument.

Thank you again for your purchase and have a great time composing,
Your SONUSCORE Team
